

**VERDUZZO DEL VENETO IGT – MISTROSANTI – IMBOTTIGLIATO ALL’ORIGINE DA VINICOLA  
CACCARO SAS – C.S. MARTINO – VIA FINCO 8 (PD) – ITALIA 12% 2010**

**VISUAL ANALYSIS:** limpid, pale yellow and quite flowing.

**OLFACTORY ANALYSIS:** the groups of aromas of the organoleptic analysis are characterized by yellow plum, lemon marmalade, white peach, green apple and wild flowers.

**GUSTATIVE ANALYSIS:** it is detectable the intense salivation; we can also perceive a limited softness and a fruit flavoured final. No good structure, but very well balanced. The gustative aromatic persistence is of 3/4 seconds.

**WINE-FOOD COMBINATION:** *aperitif*

**MY PERSONAL OPINION:** when it has passed the effect of salivation together with a final fruity flavoured, it remains only the perception of a mild and simple structure.
