RON ZACAPA: un buen anfitrión tiene que cuidar este ron para brindarlo a sus gratos huéspedes como una señora de alto rango cuida sus preciosas joyas para exhibirlas al público de las grandes ocasiones.

PISCO 1615: degustar este pisco es como hacer una caminata a rayo de sol e inesperadamente encontrar un húmedo bosque que revitaliza, con sus efluvios y frescuras, el cansancio y el adormecimiento de un fatigoso paseo.

PISCO MALPASO: el poco común nivel de acidez y el cierre livianamente amargo lo hacen ideal para un chocolate blanco que entregue la justa crasitud, dulzura y persistencia gusto-olfativa.

PISCO OVALLE: al examen olfativo se identifica una buena cantidad de efluvios que se juntan muy bien con la calidad de los aromas; los olores que componen el bouquet olfativo son miel, paja, vainilla, plátano maduro, talco, leño verde y jabón de tocador.

CACHACA VELHO BARREIRO: una cachaca con la que es muy simple hacer amistad; a pesar de ser un destilado con 40% grados alcohólicos, se puede degustar casi como si fuera un vino. No causa molestia, ni disgusta volver a tomar otro sorbo por este sentido armónico que entrega durante toda su permanencia en el paladar.
