At the visual analysis, it demonstrates to be limpid with an intense yellow shadow.

At the olfactory analysis, the perfumes, which compose the olfactory bouquet, are all clear, neat and limpid. As the description of the olfactory sensations, it is easy to identify the white apple, the yellow plum, the tangerine, the wet grass, some caramelized sugar and the white lily.

At the gustative exam, it is enough harmonic at the palate because the alcohol sensation is enveloping the mouth and let an important space to the flavours (yellow plum and wet grass) in the final.

At the retro-olfactory analysis, the heating sensation, justified for the alcoholic percentage of the spirit, is very soft, even if it does not permit the expansion of the flavours except for a little touch of wet grass at the end. The gustative aromatic persistence is about 18/19 seconds.

MY PERSONAL OPINION: a tequila which could be a simple digestive to prepare for the Mexican *siesta*.
